Past Performance

Construction Staffing	Enabled a Texas-based company to complete a project on schedule by providing skilled tradespeople and temporary staff, support with safety training, compliance checks, and back-filling critical roles. This led to a reported increase in team productivity.
Engineering & Technical Support Services	Supplied civil engineers, construction project engineers, scheduling analysts, cost estimators, and field inspectors to support capital project delivery, planning, permitting, and construction oversight across transportation and public-sector infrastructure programs.
Project Management	Oversaw major steel bridge and structural engineering projects, with responsibilities including logistics review and team facilitation.
Remediation Projects	Supported a Chicago-based remediation contractor during an emergency fire event at a New Jersey food-processing warehouse. Deployed 15 qualified remediation and cleanup personnel within three days and coordinated directly with the client's onsite management team to ensure safe, compliant, and continuous operations.
Government Clients	Federally authorized provider delivering staffing for Federal, State, and local agencies, with a focus on compliance, diversity, and quality talent acquisition.
Executive C-Suite Recruitment	Delivered C-Suite and senior-level personnel for major public infrastructure initiatives, including executive leadership for a \$1.5B railroad bridge redesign (Portal North) and Project Controls Executives for a regional transportation authority overseeing capital expansion programs.
